Kishore Sugumar

ABOUT

Hi, my name is **Kishore Sugumar**. I'm looking for a job opportunity in the engineering sector where I can use my technical knowledge and passion for innovation to contribute to projects, absorb knowledge from more seasoned workers, and further my career.

After completing my mechanical engineering diploma at the CPCL Polytechnic College in Chennai, I worked as a test engineer for the TAFE sector. And I submitted an application to a freshworks software academy that teaches coding. and I possess the skills of rapid learning, adaptability, problem-solving, and reflection.

I am eager to start my IT career and am prepared to face the challenges that lie ahead. I am dedicated to hard work, adaptability, and ongoing learning, and I eagerly anticipate the difficulties and successes.

PROJECTS

- VANHA** (e-commerce website)

freshworks Academy

It is a customer-to-customer marketplace and an e-commerce website where you can purchase or sell used goods using the auction mechanism.

- Range Rover**

Polytechnic college

It is a rover utilised to move any challenging terrain. The unique design allows all 6 wheels to move freely, making it easier to climb boulders and pass into pits.

WORK EXPERIENCE

Test Engineer

2021 - 2022

TAFE R&D

I spent a year working as a test engineer in the TAFE R&D section and gained experience in that field. My job is to test the product that the R&D team has created and determine whether or not it should go into production.
