OBJECTIVE

Highly motivated and self-taught IT enthusiast with a strong foundation in coding and programming acquired through dedicated study at [Name of Academy]. Eager to leverage my technical skills and passion for learning to contribute to a dynamic IT team. Seeking opportunities to apply my knowledge in software development, problem-solving, and contribute to innovative solutions while continuously expanding my expertise in the ever-evolving IT industry.

PROJECTS

- **VANHA (E-COMMERCE WEBSITE)**

freshworks Academy

It is a customer-to-customer marketplace and an e-commerce website where you can purchase or sell used goods using the auction mechanism.

- A front-end codebase was created and optimised using HTML, CSS, and JavaScript.
- The back end is done using Java.
- To connect the front end and back end, a servlet is used.

- **RANGE ROVER**

Polytechnic college

- It is a rover utilized to move any challenging terrain.
- The unique design allows all 6 wheels to move freely, making it easier to climb boulders and pass into pits.

EXPERIENCE

- **TEST ENGINEER**

TAFE R&D   2021 - 2022

- Employed rigorous testing methodologies
- Evaluated the R&D team's creations
- Identified areas for improvement
- Ensured only high-quality products entered production
- Reduced post-release issues
